Independent Training

You too are running Kaidoh?
Me too!
Fufuh fancy meeting you here
Mo-mo-shiro!

Put together a training menu you feel comfortable with and put it into practice
As for today's practice we'll do independent training

It seems like it will be necessary for a training for making independent training
it feels like everyone thought that making a menu was too troublesome and just started running
Wwasssshhhh

Triangle
Tezuka, look! A triangle!
The smooth slope
The soft sunlight filtering through the trees
The clear stream that can be heard from afar
Although the mountain will suddenly show its fangs
zu ka
Ah no sorry !
Ice axe !?
Tezuka !
Ice axe !?
He doesn't know time or space when he thinks about mountains.
Hey, does he always do this when he sees a triangle?
I've apparently went to a trip to the mountains again
Soulmate

You two are really good friends
The golden pair!!
You might have been friends from before this life
Soul-mate?
You two have a "soulmate" vibe
Friends from before this life

Second ichinensei assembly closing meeting

Isn't that kid multilingual?
But if I appeal to the loud voice, Echizen could will, scold me again and tell me to shut
Huh !?
They'll fall for Echizen?

What was your real reason for coming from Chiba?
He is similar to Sengoku-sempai desu...!!
I'll get scolded and I won't receive any love. There was no reason for coming from Chiba after all!!
Oh? how cute

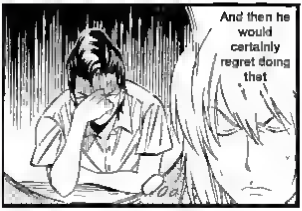
Go for a walk

From tomorrow onwards, let's go for a walk everyday so we can get good serotonin
If the morning sunlight showers us and you spend a merry day, your body will make serotonin

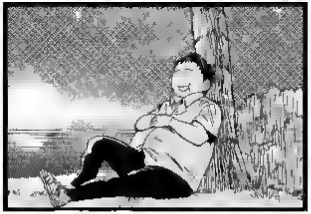
I'm sure Eishirou won't be able to take it and will use the shukuchihou
This is so tedious



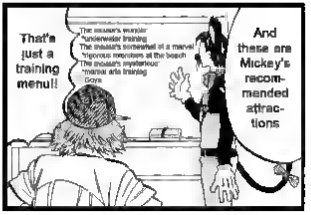
And then he would certainly regret doing that

All that serotonin would be wasted after all
!?

Idle



The mouse appears



That's just a training menu!!
The mouse's martial "underwater training
The mouse's somewhat of a marvel
Vigorous exercises at the beach
The mouse's mysterious "martial arts training
Guys
And these are Mickey's recommended attractions
